

Tell us what you need  
— we'll make it happen.

Located in central Vermont, Kalow's facility gives you access to several important features: people, location and experience. With access to resources and a highly skilled workforce, we can control costs and ensure quality to give you a competitive edge. Within a few hundred miles there are 80 million people — customers, suppliers and vendors — along with access to ports and other facilities to get your product where it needs to be.

## CONTRACT MANUFACTURING AND ENGINEERING

Tell us what you need  
— we'll make it happen.

## A REPUTATION FOR THE RIGHT SOLUTION

- Increase your capacity
- Reduce your manufacturing footprint
- Reduce manufacturing expenses
- Reduce costs for certified quality systems and process implementation
- Increase your operational efficiency and flexibility

For more than thirty years, companies have come to Kalow Technologies seeking solutions to their specific manufacturing and design challenges. Kalow has built a solid reputation by quickly responding to these challenges with innovative solutions, which saves our customers money, give them peace of mind, and keeps them coming back year after year.

## OUR PEOPLE

It takes a great deal of trust to hand over a large and complex project to a company with whom you have never worked. Kalow's team works to win your confidence.

- Guided by engineers and steered by common sense
- Quality of workmanship and focus on customer satisfaction
- Strong relationships are at the heart of business
- A personalized commitment to our customers

## OUR EXPERIENCE

Being agile and focused has given us the opportunity to work on a variety of projects for a broad range of industries. Since 1983, we've grown not only in size but in experience. Whether you're a Fortune 500 corporation, an entrepreneur or an inventor, our strength is in making exactly what you need and improving it in the process.

- Experienced in a wide array of industries
- Full-service product support
- In-depth familiarity with global standards
- Proficient in international & domestic shipments

"After five plus years of working with Kalow Technologies on projects, I have always been extremely happy with their work. The entire staff is a pleasure to work with and I look forward to many more years of collaboration." — Scott Boynton, Joining Technologies

## SERVICES

Bring us your prototype, finished design, or sketch on a napkin. We have the capabilities and skills in-house to get your idea out the door. At Kalow we don't just think, we think ahead.

- Cross-disciplined engineers and technicians
- Mechanical, hydraulic, pneumatic, optical, electric, servo/stepper control systems
- Embedded electrical design, programmable logic controls, and PCB layout
- 3-D CAD and Solidworks capabilities
- Design familiarity with CE, UL, ETL and CSA certifications
- Registered to operate under ITAR and UL508a standards

## TECHNOLOGY

From assembling the simplest machinery to troubleshooting complex technology, we work to the highest standards of quality control and workmanship. We ship directly to our customers' customers, and that leaves no margin for error.

- Electromechanical machine and system builds
- Electromechanical, hydraulic, and pneumatic control system integration
- Electrical panel and control box assemblies
- Value-added kitting
- Cable assemblies and harnesses
- 6,000 square feet of sheet metal services
- Spare parts, field service and refurbishing
- 54,000 square foot, adaptable facility
